The New Generation has arrived!

Patents Pending

Babble Balls are interactive toys that talk or make exciting animal sounds when touched. This improved technology is so sensitive it can be triggered by a pet breathing on it, or just by the vibration of a pet walking past it. When play is finished, the Babble Ball turns off automatically and waits to be touched again. Pets think it's actually alive! Babble Balls now come in the wisecracking "Talking" series, and the "Animal Sounds" series.

Animal Sounds Babble Ball®

Has more than 20 different realistic animal sounds; lion, frogs, coyote howl, lots of birds, dog barking, pigs, rooster, lamb, elephant, cow, goat, a cat, and more. Comes in 3 sizes, and in the colors shown.
